Hair Vigor, For restoring Gray Hair to its natural Vitality and Color.

A dressing which

is at once agreeable, healthy, and effectual

for preserving the lmir. Finded or gray hair is soon vestoved to its original color with the gloss and freshuess of youth. Thin hair is thick-

ened, falling hair checked, and buldness often, though not always, enced by its use. Nothing can restore the hair where the follieles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this aeplication. Instead of fouling the hair with a pasty sediment, it will keep it clena and vigorous. Its occasional use will prevent the linir from turning gray or fulling off, and consequently prevent bubbless. Free from those deleterious substances which make some preparations dangerous and injurious to the limit, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING. nothing else can be found so desirable Containing seither oil nor dye, it does not soil white rambrir, and yet lasts long on the hair, giving it a rich glossy

lustre and a grateful perfuace. Prepared by Dr. J. C. Ayer & Co., PHACTICAL AND ANALYTICAL CHEMISTS, LOWELL, MASS.

Hair Vigor,

For restoring Gray Hair to its natural Vitality and Color. A dressing which

healthy, and effectual

with the gloss and feeshness of youth. Thin hair is thinkened, falling bair checked, and bald ness often, though not always, cured by its use. Nothing can restore the bair where the follieles are destroyed. or the glands atrophied and decayed. But such as remain can be saved for usefulness by this upplication. Instead of fouling the hair with a pasty sedi ment, it will keep it cleno and vigorous Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent buldoess. Free from those deleterious substances which make some preparations theorems and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

HAIR DRESSING, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambrie, and yet lasts long on the hair, giving it a rich glossy lustre and a grateful perfume. Prepared by Dr. J. C. Ayer & Co.,

BRAINTREE HIGH SCHOOL RE-UNION.

Cla, may its bulicence be reft, Among us, who've assembled here along we long be sparred to see its glad return from year to year!

The following poem and oration were among the exercises at the re-union of the Braintree High School, last Friday

Tind you may a kind "fate at the sum to be given, Teachers on! Schoolmates all to join A ghal "Bennion," idest in Heaven!

MANA A, POWERS.

POEM BEAD AT THE HIGH SCHOOL RE-UNION, BRAINTBEE, NOV. 1965, 1869. "A Poem," I must write, they said, And I'm expected to obey; thit "poets should be *born*, not made," As, ere I've finished, you wilt say, Now, my old settoolmates know full well, My talents, in that line, were small: They never beard me making rhymes, Or teying to wield the pen, at all. But times have changed, since then, my friends, As I found out the other alight; For when the evening's until arrived, It brought the news in black and white.

Like that old storr I have heard, (If one who waked from sleep at morn, To find ke's timous grown, without A single effort of bls own. A Poetess Chair decourse.

A wondered much, and you, no doubt,
Are alled too, with the same surprise,
To think that I, you've known so long,
Should suddenly take such a rise,
that fate, 'tis said, will have its way;
So there I am, this festal wight,
To creetoid friends, and soud a thought
thack to the days of which I write. Three happy days of "Audt Lang Syne," When you and I conned lessons o'er, in that familiar room below; The charge of H. C. Whitemore.

A merrier, wilder set than we. Ne'er taxed a neacher's patient care; t think, if you should ask bim now, Which trial was the worst to bear, Some of that class are present here; My own name stands among the list; And, if t recollist aright, My share of that never missed.

terhaps you've not forgotten when, the of our band, (a girl, of course, For mischlet, most that e'er was planned, Originates from that same source!) Originates from that same source?)
Fook all the Histories, one by one,
Her own included to the lot,
And placed them in offeld near by,
Telling no others of her plot.
So when the school to order came,
The arsuspecting owners found.
Their Histories mignos, and, in turn,
All made the same complaint around.

injurious to the hair, the Vigor can Ayer's Cherry Pectoral, For Discasses of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of licine, has anything won so widely and so deeply medicine, has anything won so winey and so overly upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has rised higher and higher to their estimation, as it has become better known. Its numbran characters and power to crock the various affections of the lungs and throat, have made it known as a reliable protector against them. White adapted to milder forms of disease and to young children, it is at the same time the most effectual remely that can be given for includent consumption, and the damperons affections of the throat and lungs. As a provision against suddent attacks of Croup, it should be kept on head in every family, and luddest as all are sometimes subject to colds and coughs, all should be provided with this actidate for them.

Aithough settled Consumption is thought becars because seemed settled, have been completely ented, and the patient cestored to sound health by the Cherry Pectural. So complete is its mastery over the disorders of the Lungs and Throat that the most obsiliate of them yield to. When mothers are such to each teach them must the Cherry Pectural. pon the confidence of unnkind, as this excellent the most obstinate of them yield to it. ing it a could leach them, under the Cherry Pec-torul they subside and disappear.

Singers and Public Speakers find great pro-tection from it.

Askma is always retieved and often wholly cured by it.

Broughtits is generally cured by taking the Cherry Pectoral In small and frequent doces.

For a Cough and Codd, no better remedy can be hat. Take small doses there those a day and out the feet in warps water at might until the ing of a coublineach them, under the Cherry Pec-

put the feet in warm water at night, until th pin the feet in wars when it affects the throat or longs, take the same course.

For M hooping Cough, give small doses three or four times a day.

For Croup, give large and trequent doses until the disease is corroupe.

the disense is overcome. So family should be without the Cherry Posterial on hand to protect them, in case of attack, from the alove complaints. Its timely use often spaces to patient a resist amount of substing and risk, which he would mear by writing multi-be

ould get other aid. Parents, keep it in your houses for the exigencies that arise. Lives dear to you for the exigences that arise. Lives dear to you may be saved by it.

So generally are its virtues known, that we need not publish certificates of them here, or do never than near the public that the local qualities it ever processed are strictly mandamed.
